Trip to Ganges

The Ganges or Ganga is a trans-boundary river of Asia which flows through India and Bangladesh. The 2,704 km (1,680 mi) river originates from the Gangotri Glacier of western Himalayas in the Indian state of Uttarakhand, and flows south and east through the Gangetic Plain of India and Bangladesh, eventually emptying into the Bay of Bengal.

Batasia Loop

Perhaps one of the most picturesque train routes in all of Darjeeling, the Batasia Loop is a lush green toy train pathway that is meant to minimise the elevation of the Darjeeling Himalayan Railway. The unique design of this magnificent attraction allows the track to wrap around itself through a hilltop tunnel. One of the most enchanting aspects of the Batasia Loop is its unmatched natural beauty which is a wonderful sight to behold. Located on Hill Cart Road (NH 55), you can enjoy a panoramic view of the Darjeeling in all its verdant glory.

Nightingale Park

Located in the mesmerising hill station of Darjeeling, the Nightingale Park is a public park area frequented by the tourists and locals to relish gorgeous views of the Kanchenjunga ranges. It serves as an ideal place to unwind and recharge amidst lush greenery and soothing winds. Since the Nightingale Park is at a slighted elevated terrain, you need to climb a few steps to reach the entry to this green haven. The park was closed for renovation for about four years and has reopened for the public since 2011. There is a giant statue of Lord Shiva, a musical fountain along with the great scenery.
